

Fiber Laser Machine

Technical Parameters

Laser power : 20W, 30W, 50W
Laser source : MAX/JPT/RAYCUS
Laser wavelength : 1064nm
Q-switch frequency : 20kHz - 100kHz
Optical quality : M2s1.4
Marking field : 110*110/ 150*150/ 200*200
Minimum line width : 0.01mm
Minimum character : 0.1mm
Marking speed : 0-10000mm/s
Repeat accuracy : 0.01mm
Cooling way : Air cooling
Input power : Ac220 $\pm$ 10%Hz(60Hz)
Power of machine : 500W
Lifetime : 100,000 hours(if properly operated)
Machine size : 800*650*1520mm
